

ART OIL RAVEN 10W-40

DESCRIPTION

ART OIL RAVEN 10W-40 is a semi synthetic engine oil developed with high technology that meets the performance levels required by new generation engines. It provides high protection thanks to its special formula.

USAGE

It provides extra performance in all naturally aspirated, injected, turbocharged passenger and light commercial vehicles operating with gasoline, diesel and LPG.

PROPERTIES

- Provides high performance and fuel economy.
- Provides long oil change intervals and service intervals.
- Prevents wear by making excellent lubrication at low temperatures. Maximum fuel economy
- provides.
- Has high thermal stability and provides effective protection against oxidation.
- It prevents the formation of sediment, deposit and soot.

PERFORMANCE LEVELS

API SL/CF,MB 229.1,229.3,ACEA A3/B3/B4,VW 501 01/505 00,RN 710,FIAT 9.55535-D2VZ

STORAGE

- Packaging; should be stored in covered areas with the lids tightly closed.
- It should not be exposed to the direct effects of sun heat and heat sources.
- The ambient temperature should not exceed 60°C.
- Maximum two pallets should be stored on top of each other. Consult the Material Safety Data Sheet (MSDS) for more information.

TECHNICAL PROPERTIES

| RAVEN 10W-40 | STANDARD | VALUE |
|---------------------------------|-------------|-----------|
| Density g/cm ³ | ASTM D 1298 | 0.87-0.89 |
| Kinematic viscosity @40°C, cSt | ASTM D 445 | 96,5 |
| Kinematic viscosity @100°C, cSt | ASTM D 445 | 12-16.3 |
| Viscosity index, min. | ASTM D 2270 | 145 |
| Pour point, °C max | ASTM D 97 | -30 |
| Flash point, °C min | ASTM D 92 | 210 |

(*) Values may differ from production to production.

HEALTH AND SAFETY

Used waste products should not be dumped into underground and surface water sources, sewer connections and garbage. Prolonged contact with used oils can cause skin diseases. Therefore, sterile gloves should be used. If the used oil comes into contact with the skin, that area should be washed immediately with plenty of soap and water. If irritation or redness occurs in case of skin contact, seek medical advice immediately.
